How to upload a McGraw Hill publisher's cartridge into Moodle 2.6

Click or Copy & Paste the URLs provided below to download the Backup zip files containing McGraw-Hill's O'LEARY: Computing Essentials 2015 Complete Edition, 25, 2015 Online Learning Center Content and Test Bank Chapter files for your Moodle Learning Management System (LMS).

Content: (your course book link)

TestBank: (your course test bank link)

Content Import Instructions (IMS formatted file)

1. Log into course
2. Select "**Turn editing on**" (button in upper right corner)
3. Within a section select "**Add an activity or resource**", choose "**SCORM Package**" and click "**Add**"
4. Name the resource (Example- *O'LEARY: Computing Essentials 2015 Complete Edition 25e Content*) and provide a description.
5. Under Package select "**Choose a file...**"
6. Select "**Upload a file**"
7. Click "**Choose File**" and browse for the IMS zip file provided and select "**Upload this file**"
8. If you prefer, you can also hide the navigation button by selected "**Yes**" under the "**Hide navigation buttons**" drop down.
9. In the "**Add New Resource**" page, under "**Common module settings**," select "**Save and return to course**"
10. Select the Name of the resource you created in step 4 (Example- *O'LEARY: Computing Essentials 2015 Complete Edition 25e Content*) and select "**Enter**" to preview the text book content.

XML Chapter Test Bank Import Instructions (XML formatted files)

Unzip the XML Test Bank zip file you downloaded from the provided link above before starting the steps below.

1. Log into your course

2. Click on the "**Questions**" link on the left under "**Administration**"

3. Click on the "**Categories**" tab

4. Create a Category (folder) for each chapter of the text.

How to create a Category under the Add Category section:

- Under Parent Make Sure "**Default . . .**" is selected

- Under Name enter the name of the Chapter (**Example:**

O'LEARY_Computing Essentials 2015 Complete Edition_25e_Chapter01)

- Select "**Add Category**"

5. Click the "**import**" tab. In the "**file format**" settings, select "**Moodle XML format**"

6. In the "**General**" settings, choose the correct category you created for the corresponding chapter (**Example:** *O'LEARY_Computing Essentials 2015 Complete Edition_25e_Chapter01*)

7. Under "**import from file upload**" browse to the Chapter # XML file that you extracted on your desktop. Click the "**upload this file**" button and click continue

8. Repeat steps 5-7 until all chapters are imported
